

RBCC AD HOC COMMITTEE

DOWNTOWN RANCHO BERNARDO

SDGE UTILITY BOX

BEAUTIFICATION PROJECT

BRIEF OVERVIEW

San Diego Gas & Electric (Sempra Utilities) grants Special Painting Requests to city councils authorizing them to coordinate the painting of pad mounted transformers and equipment in the downtown business area.

At the regular meeting of the Rancho Bernardo Community Council on April 24, 2008, an Ad Hoc committee was established to coordinate the project.

The mission of this committee is to establish guidelines for the artistic painting of the utility boxes and develop a plan for implementation.

A committee is being assembled which includes artists, business owners, council members and interested community citizens. A public meeting will be held in June with the date to be announced.

For more information about this Ad Hoc Committee, please email council person Janet Atkin at [janetatkin123@aol.com](mailto:janetatkin123@aol.com)
